Bollywood Miss Shanahan ALL YEAR GROUPS	Rounders Miss Jones Open to all year groups		Cricket Mrs Blair ALL YEAR GROUPS	

Mobile Phones:

We appreciate that in some cases it may be necessary for your child to bring a mobile phone to school. The number being handed in at the office seems to be increasing again.

However, if your child brings a phone to school on a regular basis, we would ask you to consider whether this is a good idea.

Phones should be handed into the school office before entering the school playground in a morning.

Thank you for your support.

School Crossing Patrol:

We are very lucky to have two ladies who work at the school and therefore know the children who they help to cross the road safely, in a morning and in an afternoon.

Leading busy lives, in the rush to get children to school, we forget that the job they do can put their safety at risk, not to mention the children who they are escorting across the road.

For this reason, zig-zag lines are painted on the road on either side of the zebra crossing. These lines are there to prevent vehicles parking and blocking the view of other motorists, giving them clear sight of people who may be on the crossing. Please, please, please can you observe this highway code rule (which is a legal requirement), and not use the area around the zebra crossing to drop your child off. We know that you respect the safety of both the crossing ladies and the pupils. Thank you for keeping our children safe.

Year 5: Visit to Space Centre

On Friday 30th April 2018 Year 5 students had a brilliant hands-on experience and discovered how the Earth and other planets move in relation to the Sun in the Solar System.

Next edition: 11th May 2018

website: www.hasland-jun.derbyshire.sch.uk/

With an opportunity to find out how a space suit and other space equipment work they were able to understand the movement of the moon relative to the Earth

Learning that the sun, Earth and moon are almost spherical bodies, they looked at how the Earth rotates to create night and day and the apparent movement of the sun across the sky and how this affects the weather.

Year 3 Murton Park Visit

As part of their history topic on the Romans, Year 3 visited Murton Park near York on Monday 30th April.

As a Legion they learned about the Roman invasion and aspects of Roman Britain.

They were shown maps of Roman Britain and how to use the maps to obtain evidence and identify Roman Settlements from their place names.

Pupils toured the settlement to see for themselves the characteristics of Roman settlements.

One of the legacies left by the Romans were Roman Numerals and the Roman Alphabet. Pupils used the characters to write their name and address.

Outside learning:

Children are now out enjoying the open spaces in the Garden area. New fencing ensures that it is a safe and secure place for them to interact with their peers.

You will have received a letter this week from the Vice Chair of Governors, Pauline Wilkie who has been preparing the raised beds. We would be grateful for any donations of cuttings, plants, bulbs and seeds to help fill the beds and create a spectacular display. Already some children have become involved in this experience.

And...
After... with
your support.
